**GINS AND MILLS.**  
THE undersigned would most respectfully inform the planters and the public generally, that he is now prepared to furnish them with as good

**COTTON GINS**  
as can be had anywhere. He is determined to send out as good Gins as can be had at any other establishment, North or South. And any person who tries one of these Gins and it should not perform equal to any other style of Gins in the country, both in quality and quantity of lint, and in the ease and convenience with which it can be run, he has now in use in this and adjoining counties, number of his Gins, and for information in relation to them, he would refer you to Dr. Young, Henderson Lee, John Rice, Mr. Bean and others of Lowndes county; John Hollinshead, Dr. Gillespie and others of Oktibbeha Co.

Mr. John Rice above mentioned, has one of his 55 saw Gins which is making him five bales of good lint per day. John Hollinshead has one of his 40 saw Gins, which is making him three bales of good lint per day. Further reference is unnecessary—try one of his Gins, and if it does not perform well, send it back and get another until you get one that will.

**AS TO HIS MILLS**  
HE HAS NO HESITATION IN SAYING THAT  
They are the Best now in Use.

As a proof that he believes what he says, he proposes to give any man a free trial—either he will produce one equal to his in every respect—or he will give any man a Mill that will produce one that will grind as much good lint in twelve months with as little repair—or he will give any man a Mill that will find a man that he has been using one of his Mills six months and is dissatisfied with it.

**QING, MILLS AND SPINNING MACHINES**  
repaired at shortest notice and in workman like manner. All work warranted, and it is expected that every man who gets work done at his shop will report forthwith any thing that may chance to be wrong, otherwise their complaints will not be listened to at any day.

## CULLUMS SPRINGS.

Choctaw County, Alabama.

CHARLES CULLUM, late of the Mansion House, Mobile, having established himself permanently at this place, has made such progress in building and improvements as to be able to announce himself prepared to receive visitors, and hopes that his industry and experience in his profession will deserve a fair share of the public favor.

These SPRINGS are situated about half a mile east of the Bladen Springs. Steamboats ply twice a week between Mobile and Moore's Landing, on the Tombigbee river, where Canoes are always in readiness for passengers.

The Waters have been subjected to a careful analysis—Mr. Arquin, of New Orleans, who will publish in a few days the result. In the meantime, it is ascertained that they are exceedingly rich in bicarbonate of soda, and are unequalled as an alternative medicine. In addition to the alkaline waters, there is also a strong Chalybeate Spring, and within the next week two new Springs have been discovered, which are believed to possess all the characteristics of the Bladen water.

The proper steps have already been taken to obtain an accurate analysis of these also, and the result will be published as soon as it is known. The Stables, Ten pin Alley, and other improvements are also completed—all contributing to make these springs more than usually attractive.
